considerable portion of the grant. The final grant therefore should be placed at the disposal of the Municipality in good time before the close of the year instead of at the tail end.

I therefore request that you may kindly move Government to order the payment of a substantial amount out of the grant sanctioned to the Municipality this year.

I have the honour to be

Sir

Your obedient servant

[illegible]

Deputy Commissioner

[illegible] District

URGENT. Office of the Deputy Commissioner,
Shimoga District
Dated Shimoga, 7th April 1927.

Dear Mr Marker,

With reference to your No 26 dated 30th March 1927 asking me if any action has been taken in the matter of Town Improvements as suggested in your notes sent with your letter No 1260 dated the 18th February 1927, I wish to inform you as follows --

(1) Improvements to the Park -- Mr H C Javarayya, Superintendent of the Government Gardens was requested in this Office No 913 dated 1st March 1927 to inspect the Park and give his suggestions as regards the plantings to be done He has promised to come here and further action will be taken after his visit

(2) The avenue of Gold Mohor trees for the road in continuation of the main road of Park Extension will be planted immediately after a shower of rain

(3) The question of removing certain big trees in the Park has been placed before the Town Improvement Committee for their opinion

The design for the wooden railings sent by you has been sent to the District Forest Officer who has been requested to get it prepared In this connection, I wish to point out that the wooden railings proposed admit of sheep or goats getting in / change in design may be suggested if possible

The formation of the road round the circle to a uniform width of 25 feet will be undertaken while fixing the new railing

(4) to (6) Regarding repairs to parapet walls &c.-- Work has been commenced and will be completed in a week's time

(7) The suggestions with regard to earthern drains are being carried out gradually

(8) Mr Javarayya promised to send a trained Mali for the Park Work of nursery will be undertaken after he inspects the Park and gives his suggestions An advance has been made to the Mali He has not come as yet

3 I shall arrange to give effect to the suggestions re improvements to the several junctions after I receive your designs for them

4 (i) The suggestions about trimming and forming the mounds of earth irregularly heaped up in the several roads are being given effect to gradually with the existing staff of the Municipality which is undermanned

(ii) I have arranged for the filling up of the insanitary pits and shall try to fill up as many of them as possible before the monsoon

(iii) Notices are being issued to the several owners to level the mounds of earth in their vacant sites Rubbish and earth from other sites are being carted to fill up hollows

(iv) Granting of licences for thatched buildings has been prohibited and every attempt is being made to acquire unsightly thatched sheds whenever opportunity presents itself

5 As regards your suggestions about the control over the building operations I wish to inform you that the sites that are allotted are so small in dimensions ranging from 30'by 80' to 60' by 120' that it is not possible to enforce the

the condition of asking them to set back the building line from 20' to 50' from the road and to leave a space of 10' to 30' on either side of the house

It is possible to restrict the building area to one fourth of the area of the site as per your suggestions This will be enforced wherever practicable

In this connection, I may add that in certain cases acquisition proceedings have also been started for opening conservancy lanes in crowded localities and they have been sanctioned by Government I expect to complete the work in regard to these three or four conservancy lanes before the close of the year The Town Survey is also proceeding briskly and further proposals have to be submitted after the Survey is completed and a plan got prepared

I should like to add in this connection that want of funds is hampering all work considerably Out of Rs 15000/- sanctioned for Town Improvement, no amount has as yet been placed at my disposal The balance at the credit of the Municipality is just sufficient to carry on the routine items of work here I sent up estimates to the extent of Rs 9000/- to Government for favour of early sanction and sanctioned has not been received as yet The procedure regarding the drawing of Rs 15000/- is made so contingent that it will not be possible for me to draw any money at all, as I am asked to incur expenditure from Municipal funds in the first instance and then recoup which in the present state of Municipal Finances I am unable to do Either the grant should be made outright or an advance of at least half the grant should be made immediately and further grant made after examining the expenditure incurred As regards filling up of pits and hollows, you will see this cannot be speedily done with the existing Municipal staff Some extra expenditure will have to be incurred by engaging a temporary

1

Sir,

With reference to correspondence ending with your letter no Gn 3C 41/ dated 23 3 27 requesting that the sum of Rs 1500/- sanctioned for town improvements to the Shimoga Town may be placed at your disposal for certain works that have been sanctioned by the Municipal Council, I am directed to ~~[illegible]~~ with reference to Circular letter no 12362-9/Mil 125-22-21 dt 15th Sept^r 1922 requesting that the amount of grant under this head should be utilised only for works outside the ordinary duty of the

over

and of a special character
Municipalities / and the opening out
congested areas, formation of Committees,
drainage works etc and to state that
all the items of work in the list
now received from you relate to
Travelling and metalling roads
and that they do not fall
under that description given in the
circular I am therefore to suggest
that the grant may be withheld for
such work of a more permanent and
Special character as regards the placing
the amount at your disposal and to state
that at when the estimates are sanctioned
and the works carried out the
bills therefor may be
sent to the Treasury to be debited direct
to the grant instead of being paid
from the funds of the Mehty and
the grant being drawn all together
thereafter The grant cannot be
given to the Mehty to be merged in its
general balance but there is no objection
to the amount of it being treated as available
in the Treasury for being drawn upon for
meeting expenditure on the works for the execution of which it
has been sanctioned I am to request that a list of the
works of a special nature which the Mehty wish to take up
and finance from this grant may be sent and if it is
also by Govt the procedure suggested above, may be followed for
meeting the bills -

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Dated Bangalore 13th May 192 7

No L. 8174/Ml. 89/26/7

From

R RANGA RAO Esq BA BL
General Secretary to the Government of His Highness the Maharaja of Mysore

To

ml 89-26-7

B T Kesava Iyengar, Esq B A ,
Deputy Commissioner, Shimoga District

Sir

With reference to the correspondence ending with your letter No M, 3 C 41/26 dated the 23rd March 1927 requesting that the sum of Rs 15,000/- sanctioned for Town Improvements to the Shimoga Town may be placed at your disposal for certain works that have been sanctioned by the Municipal Council, I am directed to invite attention to Circular letter No L 2362-9/Ml 125-23-21 dated the 15th September 1924, requiring that the amounts of grant under this head should be utilised only for works outside the ordinary duty of the Municipalities and of a special charector such as opening out congested areas formation of extensions, drainage works etc and to state that all the items of work in the list now received from you relate to gravelling and metalling roads and that ~~may~~ they do not fall under the --- description given in the circular I am therefore to suggest that the grant may be utilised for some work of a more permanent and special character As regards placing the amount at your disposal, I am to state that when the estimates are sanctioned and the works carried out the bills therefor may be debited direct to the grant instead of being first paid from the funds of the Municipality and the grant being drawn all together thereafter The grant cannot be given to the Municipality to be merged in its general balance but there is no objection to the amount of it being treated as available in the

for meeting expenditure on the works for the execution o it has been sanctioned I am to request that a list of t works of a special nature which the Municipality wish to t up and finance from this grant may be sent and that after it is approved by Government the procedure suggested above may followed for meeting the bills

Rush of expenditure in the closing months of the year should be avoided If the grant cannot be fully utilised during the current year Government will have no objection to consider sympathetically the question of providing the amount likely to lapse in the next year's budget if a requisition is now made therefor

I have the honour to be,

R Ranga Rao, Esq , B~~A., B L~~
Secretary to Government, General Department,
Bangalore

Sir,

With reference to your No L 8170 dated 13th May 1927, asking me to submit monthly progress report for the month of April 1927 regarding the Shimoga Town Improvements as suggested by Mr Marker, I have the honour to submit herewith copy of the brief report on the action taken in regard to the several improvements submitted by me to the Dewan Sahib for favour of his information

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Shimoga District

25

REPORT ON THE ACTION TAKEN IN REGARD TO THE GENERAL IMPROVEMENTS SUGGESTED BY MR MARKER IN HIS INSPECTION NOTES, OF THE SHIMOGA TOWN

****

I PARK IMPROVEMENTS.

The central "Chaman" in the park is being newly laid out The wooden ornamental railing has been ordered and it will be put up as soon as it is received Some big trees obstructing the view of the Town Hall have been cut down Culverts on roads leading to the centre of the Park have been improved Pits and hollows have been filled up to some extent with the aid of gang men engaged temporarily An oblong stone revetted pond to the north of the "Chaman" has been repaired, the parapet walls having been white and colour washed The surroundings of the Park have been cleaned up a bit A good deal yet remains to be done, But this has to be gradually improved out of the ordinary resources of the Municipality The road leading to the Park from the Park/extension is being improved The roads in the Park require metalling but the Government grant cannot be used for this purpose and there is not much spare money in the Municipality

Mr Javarayya visited the town on the 5th and 6th of this month and gave certain suggestions or the improvement of the garden and planting of trees in the Park These will be attended to during the monsoon A trained Mali has been got from Bangalore and he is doing some

work in the garden

Plans were received from Mr Marker very recently for the formation of two important circles One at the junction of four roads near the District Office and the other for the circle at the Nagar Bagal Both the plans were approved by the Municipal Council and estimates are being got up I have sanctioned the estimate for the District Office Circle and ordered the work to be put on hand pending formal sanction of Government The estimate for the Nagar Bagal circle is likely to be heavy and involves a good deal of acquisition work It is roughly estimated at Rs 22,000/- including cost of acquisition and it cannot be completed before the close of this year If a grant of 15,000/- is made available next year also, detailed proposals can be submitted

II FORMATION OF CIRCLES

Government have sanctioned the acquisition of properties valued in all 15,000/- These properties have been acquired in the interest of the beautification of the Town It is necessary that the Government should approve of the cost of acquiring these properties being met out of the grant of 15,000/- By the acquisition of these properties conservancy lanes will be laid out and congestion removed An amount cannot be incurred out of

III OL TOWN IMPROVEMENTS

municipal finances on account of its prior loan obligations. Drains in the Town are being cleaned and shaped properly and in a few places arrangements have been made to mitigate the sullage water nuisance

The junction of the roads at Kattankudi on the road to Thirthanalli has been improved considerably and a circular platform built round the Aswatha Tree which could not be cut down owing to the sentiment of the people there This improvement adds considerably to the facility of traffic in that area

[illegible] OF NEW MARKET.

The Municipal Council have recently sanctioned the scheme for acquiring the premises in Kumar Lane for the new market to be opened there Detailed statements with estimates will be submitting for the sanction of Government shortly

[illegible] Tank.

Owing to late arrival of machinery, the new improvements have not as yet been completed But the work is going on briskly now Some more materials have to arrive from Mandravati and these are expected to arrive soon As regards the loan of Rs. 25,000/- payable by the Government in this connection, I have addressed the General Secretary in the matter

.T.S.

28

Clearance of rank vegetation and filling up pits and hollows is going on as usual and the cost is being met out of the ordinary resources of the Municipality

VI. [illegible]

In this connection I beg to represent that although the Government grant may not be utilised for works ordinarily to be done by the Municipality out of its funds, still expenditure of the following kinds may be generally ordered to be met out of the said grant:--

[illegible]

(1) Cost of acquisition of properties with a view to remove congestion in the town

(2) Cost of acquisition of properties for the beautification of the town by forming circles

(3) Cost of re-constructing communal buildings demolished for improvement of roads and on the years loan, Rs.[illegible]

(4) Cost of railings, walls, pillars &c. required for circles

(5) Cost of all other works of special kind for sanitary improvements and for beautifying the town the estimates for which may be sanctioned by the President

The Municipality on the other hand may expend the available balance after meeting all obligatory items of expenditure during the year on --

(1) acquiring properties and replacing them with a view to expect an adequate return while at the same time improving the town.

(2) maintaining the existing sanitary works in proper order.

(3) in building necessary structures for the transaction of municipal business.

(4) in advancing loans to a limited extent for the construction of tiled houses in place of thatched ones.

(5) in building houses for sale

These suggestions I shall place before the Municipal Council at the time of the Budget

[illegible]
Deputy Commissioner,
Shimoga District

Dated Shimoga 15th May 1927

My dear Ramachandra Rao

In reply to your letter dated 12th May 1927 I enclose for the information of the Dewan sahib a brief report on the action taken in regard to the general improvements suggested by Mr Barber in his inspection notes

I have recently received communication from the General Secretary to Government intimating that the sum of Rs 15 000/- should be utilised only for current charges of work and that the amount should be drawn after approval of Government is obtained to the estimates sanctioned by me I have sanctioned till now estimates amounting to 8 000/- and all these estimates relate to the removal of congestion in the town by acquisition of private houses laying out conservancy lanes formation of circles and improvements of the Irwin Road Circle One other estimate is being got ready for the Nagar Basal road circle This will involve heavy acquisition work and a large sum of money This can be taken up if the Government can sanction a grant next year also equal in amount to the grant sanctioned this year About this I shall address the General Secretary also

Yours sincerely

31

REPORT ON THE ACTION TAKEN IN REGARD TO THE GENERAL IMPROVEMENTS SUGGESTED BY MR MARKER IN HIS INSPECTION NOTES, OF THE SHIMOGA TOWN

****

I PARK IMPROVEMENTS

The central "Chaman" in the park is being newly laid out The wooden ornamental railing has been ordered and it will be put up as soon as it is received Some big trees obstructing the view of the Town Hall have been cut down Culverts on roads leading to the centre of the Park have been improved Pits and hollows have been filled up to some extent with the aid of gardeners engaged temporarily An oblong stone revetted pond to the north of the "Chaman" has been repaired the parapet walls having been white and colour washed The surroundings of the Park have been cleaned up a bit A good deal yet remains to be done, But this has to be gradually improved out of the ordinary resources of the Municipality The road leading to the Park from the Park/extension is being improved The roads in the Park require metalling but the Government Grant cannot be used for this purpose and there is not much spare money in the Municipality

Mr Javaraya visited the town on the 5th and 6th of this month and gave certain suggestions for the improvement of the garden and planting of trees in the Park These will be attended to during the monsoon A trained Mali has been got from Bangalore and he is doing some useful

municipal finances on account of its prior loan obligations Drains in the Town are being eased and shaped properly and in a few places arrangements have been made to mitigate the sullage water nuisance

The junction of the roads at Veeravatti on the road to Thiruthanelli has been improved considerably and a circular platform built round the Arasatha Tree which could not be cut owing to the sentiment of the people there This improvement added considerably to the facility of traffic in that area

SHIFTING OF THE MARKET

The Municipal Council have recently sanctioned the scheme for acquiring the properties in Pinder Peri for the New Market to be opened there Detailed estimates with its estimates will be submitted for the sanction of Government shortly

WATER SUPPLY IMPROVEMENTS

Owing to late arrival of machinery the new improvements have not as yet been completed but the work is going on briskly now Some more materials have to arrive from Bangalore and these are expected to arrive soon As regards the loan of Rs.50,000/- payable by the Government in this connection I have addressed the General Secretary in the matter

P T O

Clearance of rank vegetation and fill- VI OTHER IMPROVEMENTS
n d pits and ollows is going on as usual
 t e cost is being met out of the ordinary
 ources of the Municipality

In this connection I beg to represent VII CONCLUSION
 t lthough the Government grant may not
 e utilised for rks ordinarily to be done
by t e Municipality out of its funds still
 a ule of the following kinds may be
generally specially ordered to be met out of the said
 nt --

(1) Cost of acquisition of properties with a view to remove congestion in the town

(2) Cost of acquisition of properties for the beautification of the town by forming circles

(3) Cost of re-constructing communal buildings demolished for improvement of roads (same is on the My ore Road Bangalore

(4) Cost of enlarging all pillars &c required for circles

(5) Cost of all other works of special kind for sanitary improvements and for beautifying the town the estimates for which may be sanctioned by the Government

Municipality on the other hand may
end the available balance after meeting
ll obligatory items of expenditure during
he year on --

(1) acquiring properties and relaying them with a view to expect an adequate return while at the same time improving the town

(2) maintaining the existing sanitary works in proper order

(3) in building necessary structures for the transaction of municipal business

(4) in advancing loan to limited extent for the construction of tiled houses in place of thatched ones

(c) In building houses for sale

These suggestions I will be before the Municipal Council at the time of the Budget

Commissioner

for the District

Office of the Deputy Commissioner,
Shimoga District
Dated Camp Mysore 11th June '27

From

B T Kesavaiengar, Esq B A .
Deputy Commissioner,
Shimoga District

To

R Ranga Rao Esq B A , B L ,
Secretary to Government,
General Department
Bangalore

Sir

In continuation of my letter No A 3 121/26-27 dated 15th May 1927 submitting a brief report on the action taken in regard to the several improvements to the town of Shimoga, I have the honour to state that the Government Order No L 8174/Ml 89-26-7 dated 13th May 1927 defining the objects for which the Government grant should be utilised was placed before the Municipal Council at their meeting held on 25th May 1927 The Council in accepting the directions conveyed in the order referred to above beg to urge that the Government may be pleased to approve of the suggestion contained in the last para of my brief report of the 15th May 1927

2 The Council have passed 16 estimates, the estimated cost of which amount to Rs 9729/- in the aggregate, for works consisting of --

(1) Formation of a circle at the junction of roads near the District Office costing of Rs 1855/-

(2) Acquisition of certain properties to relieve congestion and to lay out conservancy lanes cost amounting to Rs 4750/

(3) Improving the Municipal Park at a cost of Rs 1235/-

(4) Other minor items of work costing Rs 1899/- proposed to be carried out as per suggestions of Mr Marker in his inspection notes with regard to the improvements to the Town

I request that the works may kindly be sanctioned and the cost allowed to be debited to the Government Grant of Rs 15,000/- sanctioned in Order No L 185-6/Ml 37-25-22 dated 12th July 1926 I also request that necessary instructions may kindly be issued early to the Comptroller to arrange for the bills being cashed in the District Treasury before the end of June 1927

A detailed list of works proposed together with a copy of the Municipal Council's resolutions of 25th May 1927 is submitted herewith

I have the honour to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Shimoga District

Proceedings of the adjourned meeting of the Shimoga Town Municipal Council held in the Town Hall on Wednesday the 25th May 1927

27 JUL 1927

To

K Ranga Rao, Esquire, B.A, B L,
General Secretary to Government,
Bangalore

Sir,

With reference to Government Order No L 9000-9/Rl 89-26 dated 30th June 1927, according sanction to the execution of the improvement works proposed by the Shimoga Town Municipal Council, I have the honour to state that a sum of ₹ 8274/10/- was drawn on 30th June 1927 by the President of the Municipality, on account of the works as per enclosed list It is seen therefrom that there has been an excess of expenditure over the sanctioned estimates, in respect of certain items and they have been explained by the President

2. With regard to items 14 and 15, in particular, it is ascertained that while seeking sanction of Government to the acquisitions referred to, the statutory allowance of 15 % over the amounts now sanctioned permissible under the Land Acquisition Regulation, was omitted by oversight to be included in the estimates of ₹ 2500/- and ₹ 250/- respectively for land acquisition charges which only represented the price of the properties to be required as per valuation statement received from the Municipality Those amounts together the statutory allowance of 15 percent, aggregating to ₹ 3375/- have now been drawn and placed at the disposal of the L Acquisition Officer The action taken by the President of the Mu

Municipal Council, to draw the extra 15 " necessary to enable the Land Acquisition Officer to pass the awards, may kindly be approved under the circumstances explained above

3 With regard to the other three items the amounts exceeding the sanctioned allotments are small and the excess expenditure may kindly be sanctioned

4 A copy of letter No 56 dated 16th instant, from the President of the Municipality, together with its enclosures is enclosed for reference

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Shimoga District

Letter No 56/27-28 dated 15/16 th July 1927 from the President Shimoga Town Municipal Council, to the Deputy Commissioner, Shimoga

Adverting to Government Order No 9008-9 Ml 89-26 dated 28th June 1927 according sanction to the Execution of the works proposed in connection with the Town Improvement, I have the honour to state that a sum of ₹ 8274-10-0 was drawn on 30-6-27 on account of the same as per list attached There has been an excess expenditure over the estimated amount under item Nos 4, 11, 12, 14 and 15 for the reasons explained in the remarks column

With regard to item No 14 and 15 cost of acquiring properties, a sum of ₹ 725/- was drawn in excess over the sanctioned amount and it is on account of the statutory allowances that were permissable and passed by the Land Acquisition Officer

As regards para 9 the deductions noted under Government Order No R 173-233 L R 21-26 dated 23-6-27, the whole amount was placed at the credit of the Acquiring Orficer

I request you to be so good as to obtain sanction of Government for the excess amount drawn for the works referred to above

Office of the Executive Engineer,
Sanitary & Town Planning Divn

Bangalore 11/12th April 1927

Dear Sir,

I beg to enclose herewith a copy of D O No A 3 121/ 26-27 dated 7th April 1927 received from the Deputy Commissioner of Shimoga describing the action taken by him in the matter of Town Improvements on the lines suggested by me in my inspection notes a copy of which was sent to you ir my D O No 1260 dated 18th February 1927 I shall thank you to kindly submit the same to the Dewan Sahib for his kind information

I would like you to draw the kind attention of the Dewan Sahib to the last para of his D O wherein the Deputy Commissioner states that his works are very much hampered for want of funds as no amount out of Rs 15,000/- sanctioned by the Government for town improvements is placed at his disposal yet This requires looking into

Yours sincerely,

D O No A 3 121/26-27 dated Shimoga 7th April 1927 from the Deputy Commissioner, Shimoga District Shimoga, to the Executive Engineer, Sanitary and Town Planning Division Bangalore

---

With reference to your No 226 dated 30th March 1927, asking me if any action has been taken in the matter of Town Improvements as suggested in your Notes sent with your letter No 1260 dated the 18th February 1927 I wish to inform you as follows -

1 Improvements to the Park Mr H C Javarayya Superintendent of the Government Gardens was requested in this office No 913 dated 1st March 1927 to inspect the Park and give his suggestions as regards the plantings to be done He has promised to come here and further action will be taken after his visit

2 The avenue of Gold Mohor trees for the road in continuation of the main road of Park Extension will be planted immediately after a shower of rain

3 The question of removing certain big trees in the Park has been placed before the Town Improvement Committee for their opinion

The design of for the wooden railings sent by you has been sent to the District Forest Officer who has been requested to get it prepared In this connection I wish to point out that the wooden railings proposed admit of sheep or goats getting in A change in design may be suggested if possible

The formation of the road round the circle to a uniform width of 25 feet will be undertaken while fixing the new railing

4 to 6 Regarding repairs to parapet walls etc, Work has been commenced and will be completed in a week's time

7 The suggestions with regard to earthen drains are being carried out gradually

8 Mr Javarayya promised to send a trained Mali for the Park Work of nursery will be undertaken after he inspect the Park and gives his suggestions An advance has been made to the Mali He has not come as yet

3 I shall arrange to give effect to the suggestions regarding improvements to the several junctions after I receive your designs for them

4 (i) The suggestions about trimming and forming the mounds of earth irregularly heaped-up in the several roads are being given effect to gradually with the existing staff of the Municipality which is undermanned

(ii) I have arranged for the filling up of the insanitary pits and shall try to fill up as many of them as possible before the monsoon

(iii) Notices are being issued to the several owners to level the mounds of earth in their vacant sites Rubbish and earth from other sites are being carted to fill up hollows

(iv) Granting of licenses for thatched buildings has been prohibited and every attempt is being made to acquire unsightly thatched sheds whenever opportunity presents itself

5 As regards your suggestions about the control over the building operations I wish to inform you that the sites that are allotted are so small in dimensions ranging from 30' by 80' to 60' by 120' that it is not possible to enforce the condition of asking them to set back the building line from 20' to 50' from the road and to leave a space of 10' to 30' on either side of the house

It is possible to restrict the building area to one fourth of the area of the site as per your suggestions This will be enforced wherever practicable

Notes on Shimoga Town Improvements by H F Marker Esq , L C E , M R San I

---

1. The major portion of town was inspected by me on the 13th and 14th February, 1927, with Deputy -- Commissioner and the Chief Officer of the Municipality and a number of suggestions from a Sanitary and Aesthetic point of view were made

IMPROVEMENTS TO MAHARAJA'S PARK.-

2. (i) The park is rather bare and without any --- colour in it It requires to be planted up with flowering trees shrubs and plants to lend colour and cheerful appearance to it This must be made the chief centre of amenity of life in this otherwise dull and unattractive town A few seats in it would be desirable If the park is made more attractive people would resort to it At present it seems to have been deserted Suggestions for planting up the area may be obtained from the Superintendent Government Gardens

(ii) A new road of 12' width which is being opened up now in continuation of the main road of Park Extension may have an avenue of gold mohar trees

(iii) The Circular Garden in the middle of the Park requires to be overhauled with a view to a better layout and better planting There are too many high trees in a small area which conceal the view of the Town Hall Some of these trees must go and some --- better planting may be resorted to

The wire fencing round the circle which is rather in a bad state of repairs may be removed and used -- elsewhere and a wooden railing painted white put in its place The design of the railing will be sent from this office. The road round this circle is not of uniform width - it must be made 25' wide.

(iv) There is a nice moat in the Park the parapet

and 4

is turned black through weathering action This must be epaired and replastered anew and colour washed with slate relieved with white.

This will set out the Park to some extent

(v) Similarly the parapet walls of the culverts on one of the roads of the Park require to be repaired and improved as suggested by me to the Chief Officer The coping slabs on them are crude They must be dressed two line and edges champhered. The body of the wall to be pointed and colour washed slate relieved with white pilasters

(vi) The roads in the Park may nave Guard Stones of 9" X 1' X 3" at 100' apart rounded of at top coloured white with whitewash as in the sketch in the margin

(vii) Some of the earthen storm water drains in the Park and elsewhere are very prominent owing to their deep trapezoidal -- section which is eroded and cut up They look very shabby and add to the ugliness of tne surroundings I would suggest to make them less marked by adopting a wide and saucershaped section as shown in the sketch in the margin wherever it is possible to --- adopt such a section Such drains would be less perceptible and would not be an eyesore

(viii) A nursery for the Park and employment of two or three Gardeners to look after the Park are necessary

IMPROVEMENTS TO JUNCTIONS OF ROADS -

3 Improvements to some of the important junctions of more than two and three roads are necessary with a view to give more facility and convenience to the traffic and also to add to the attractiveness of tne town

I would suggest the following junctions to be taken up first - the designs for which will be soon sent from this Office as soon as their surveys which are in hand now are finished.-

(1) Nagar Bagal Chowk and Petta Chowk near old Post Office
(2) Junction near District Offices
(3) Jail Chowk
(4) New Post Office Junction, Durgigudi Road, Workshop Road and District Office Road.
(5) Kasaba Junctions where Church Road and Shikaripur Road meet.

Other junctions will be inspected on my next inspection and suitable proposals will be sent up for them also

FILLING UP OF PITS, HOLLOWS &c ,

4 There are a few prominent eyesores in the Town which greatly add to the untidyness and unattractiveness of the town They may gradually be removed by the Municipality by employing a dozen or so Amani Coolies under conscientious and painstaking maistry

(i) On many of the roads one sees for its full length mounds of earth on each side of the road (the accumulated silt or earth of years removed from the side drains) in irregular and randum sections They would look alright if they are trimmed and formed in some section as shown in the margi al sketch and slopes turfed As they are they disfigure the roads to a great extent

(ii) There are a number of open spaces in the town full of either pits or prominent undulations or mounds of earth overgrown with rank vegetation lantana &c , These pits in the rainy season are a great source of danger to public ealth through stagnant pools of water breeding musquitoes All such pits may be gradually filled up by cutting undulations nearby or carting --- earth from mounds of earth in the town

(iii) A number of private and public sites have mounds of earth and rubbish right in the heart of the town to the great detriment to the health of the people They may be advantageously removed to fill up pits and hollows which are not few in number in the town

(iv) On important main roads of the town one finds a number of thatched houses They not only greatly disfigure the road, but are a great danger to neighbouring good houses in case of fire They should be gradually removed one after the other and better ones built in their places. The provincial as which as through

the town and through which tourists from different parts of India and world pass should be free from such eyesore

There is an amount of works to be done for items (i), (ii) and (iii) noted above I would suggest to have rough estimate made for these items by the Chief Officer and after seeing its approximate cost, the work may be spread out for two to three years, and the town thus get rid of these unsightly pits hollows and mounds of earth

CONTROL OVER BUILDING OPERATIONS -

5 If the City is to grow orderly with neat, clean and sanitary houses and if our roads are not to be disfigured with melancholy examples of buildings there should be strict and efficient supervision on the building of new houses in the City In all well organized Municipalities building operations are under very strict control and rigourous steps are taken against those who fail to abide by the Municipal Regulations This is one of the most important Municipal duties

It is due to this want of strict control that we see houses springing up on either side of the road in any fashion the owner likes the frontage is not -- parallel but very often show to the road there is no uniform building line with the result that a number of encroachments on the road are seen the windows and ventilations are not sufficient in number or in size to allow a free play of air and light in the house

What is past is past but for future especially in the New Extensions that are being formed the Municipality should not allow this state of affairs -- There should be very strict control over the buildings to be constructed in the Extensions Before a site is sold, certain rules and regulations governing the site with respect to the building line, the area to be built upon, and open spaces left on either side of the ---

60

building should be laid down

I would suggest that (i) according to the size of the sites the building line should be set back from 20 to 50' from the road (ii) a space of 10 to 30' should be left open on either side of the house, (iii) only ¼th of the site to be built upon to prevent -- overcrowding i e ii a site measures 80 x 100 i e , 8,000 Sq feet only 2,000 Sq ft should be allowed to be built upon including outhouses &c
